

# They are looking for the native wheat because they estimate its merit

**The interest of the grain growers to Agronom LTD at the exhibition in Dobrich was huge because the Company has created excellent varieties high-yielded wheat**

## **Agr. Petar Krastev**

This year so as any others, all growers had the opportunity to receive useful information about the wheat varieties with Agronom Trade Mark at the Grains and Sapling Market in the town of Dobrich.

AGRONOM LTD is a Bulgarian Company whose basic activity is directly connected to selection, variety testing and seed production of wheat and other field cultures. In result of selection activity in which our country is traditionally strong, in the past 20 years, many varieties high yielded winter soft wheat have been created. They are remarkable with excellent combination between Yield, grain property, tolerance against fungal diseases and stress resistant.

They are suitable for all grain yielding regions of Republic of Bulgaria in front of the unforeseeable climatic conditions.

The seed yield is executed under the expert management which acknowledges over the culture cultivation are on extremely

**A part of the Agronom's team is the famous selectionist Prof. DR. Nikolay Tsenov (Left side) whose varieties are the most preferred in the whole country. Next to him is Mrs Zlatina Gubatova, Marketing Expert in the Company**

high level. The Company tells that the farmers who choose its seeds will have every year the opportunity to realize high profit.

At the Grains and Sapling Market in the town of Dobrich, visitors and Agronom Consultants exchanged ideas, opinions and advices for the agricultural 2015/2016 year. From

31 March 2015 Agronom LTD Dobrich began to receive inquiries and to conclude contracts for delivery of wheat seeds to every point of the country for the autumn campaign. This refers to "Basis" and "First reproduction" of the "Factor", "Enola", "Laska", "Iveta", "Aneta" varieties so as to com new

from the product list.

Because AGRONOM always have strived for strong connection with its contractors, from the team announced that a fever preparation has already seethed for the "AGRA" Plovdiv (04.03. - 08.03. 2015) where representatives of the Company will welcome again all guests and will answer to all of their questions.
